

CASE STUDY

Jane Norton, Headteacher
Crossgates Primary School

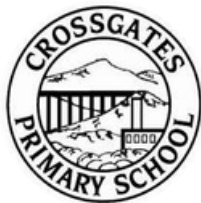

AT A GLANCE

CHALLENGES

- Linking together SDP, SEFs, personal development
- Creating reports to show governors and key stakeholders
- Having enough time to plan and update everything

BENEFITS

- All aspects of SchooliP link into one another
- Instant creation of reports at the click of a button
- Speedy customer care team, with issues being solved by the next day

"...Buy it! It saves definitely saves you time and it is worth every penny..."

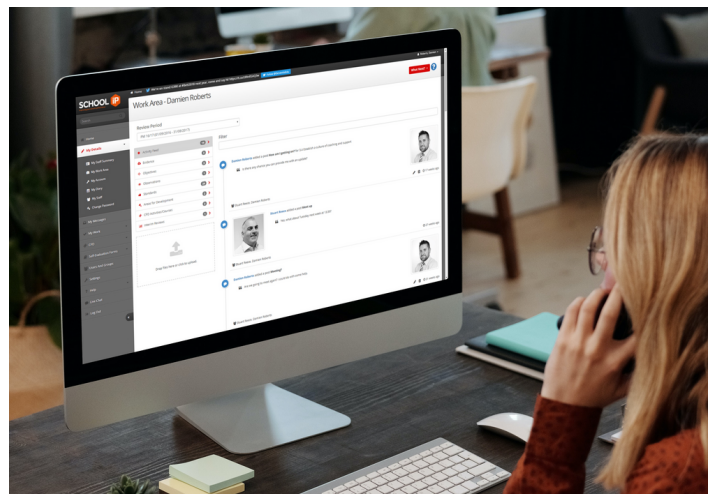

JANE NORTON

Headteacher

Crossgates Primary School

OVERVIEW

Crossgates Primary School is located in Milnrow, Rochdale. The Headteacher, Jane Norton speaks about how SchooliP has helped to save her precious time and get the staff more involved with the professional development process.

IMPACT

Jane stated "It really does save time and I have already saved three weeks of my life as a busy Headteacher! It is far more efficient than my old system. Staff are now more responsible for their performance management. All our processes are very manageable and teachers like using SchooliP."

Jane also added that "I wanted to save time and paper, and I wanted a system where everything is done together. So having performance management, the school development plan and our self-evaluation form all automatically feeding information into each other was the major selling point. Also, I wanted a system where I could show instant reports to our Board of Governors."
