

**TAILORED FOR
INDEPENDENT SCHOOLS
PRE-PREP, PREPARATORY, SENIOR
AND ALL THROUGH**

**BETTER PERSONAL OUTCOMES FOR PUPILS AND STAFF
THROUGH JOINED-UP SCHOOL IMPROVEMENT, STAFF
PROFESSIONAL DEVELOPMENT, POLICY MANAGEMENT
AND SCHOOL-WIDE AUDITS**

WHAT IS SCHOOLiP?

SchooliP (School Improvement & Performance) is a cloud-based suite of school improvement tools, specifically designed to provide better personal outcomes for pupils and staff through joined-up:

- school improvement
- staff professional development
- self-evaluation
- policy management
- school-wide audits

SchooliP has been designed and developed by Derventio Education, an education-focused software house based in Derby in the East Midlands.

We currently have over 700 schools and colleges worldwide effectively benefitting from our suite of school improvement tools.

DESIGNED SPECIFICALLY FOR INDEPENDENT SCHOOLS

We work with many types of independent schools including pre-preparatory, preparatory, senior and all-through schools.

How these types of schools operate has informed our development roadmap and means that we keep a strategic view at the heart of our school improvement methodology. An example of this would be the dashboard which has been developed to incorporate the current picture of your development on a single page.

SCHOOL IMPROVEMENT

SchooliP brings about whole-school improvement by enabling schools to identify their priorities for improvement and maintaining high standards of delivery. These priorities typically come from a recent inspection or are as a result of your own self-evaluation processes.

These priorities then feed into the school development plan and also some of the professional development targets identified for staff development.

This ensures that everyone is pulling in the same direction and provides a strategic focus to your school improvement.

SCHOOL DEVELOPMENT PLANS

The strategic priorities then feed into the school development plan. SchooliP supports both whole-school and curriculum-area planning.

In SchooliP it's easy to see the current state of play in relation to the school development plan. A doughnut chart shows the current progress with all activities, providing transparency.

No longer do you have to wait to find out what the current status is of activities on the school development plan and there's comprehensive strategic and action plans too.

Action Plan

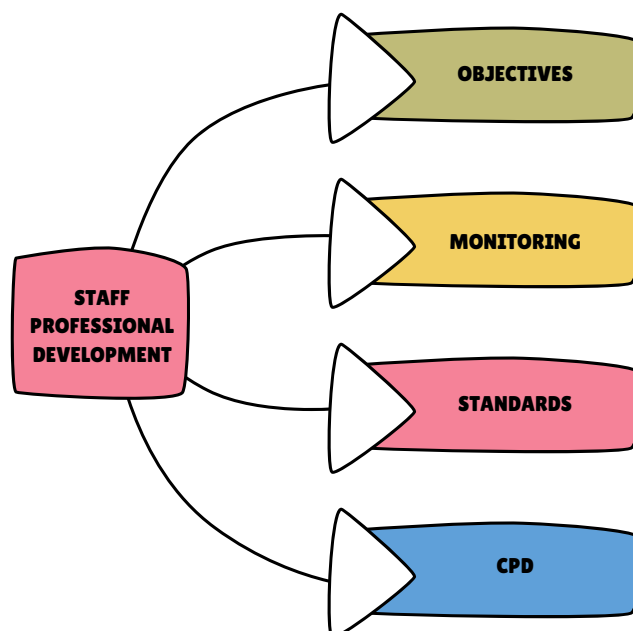

Priority - 1. Standards of achievement - Raise attainment throughout the school

Objective	Activity	Success Criteria	Timescale	Staff	Status	Monitoring	Review	Outcome
1.1 Reduce number of areas where achievement is not yet at least good Department English Lead Blackman, Charlie	Embed online assessment software to facilitate regular and robust tracking and subsequent intervention to address underachievement.	Staff regularly using online assessment software Intervention is reducing underachievement	31/08/2021	Allcot, Jessica	In Progress	Meeting Review		Staff will be able to expand their knowledge on the set activity
	Underperforming areas of the core subjects have specific action plan	Less variation between areas between core subject areas Better results overall	31/08/2021	Simpson, Daniel, Foreman, Gary, Allcot, Jessica	In Progress	Check the core subject action plans, Meeting Review	Subjects required to add action plans :- Maths English Science	Staff will be able to expand their knowledge on the set activity
1.2 Ensure targets allow progress to be robustly measured across all key stages Department Maths Lead Not Set	Develop a system for setting an appropriate target against which progress can be measured	System is established that clearly identifies whether progress has been made	31/08/2021	Simpson, Daniel, Allcot, Jessica	Completed	Meeting Review	Review using KRM method termly	Staff will be able to expand their knowledge on the set activity

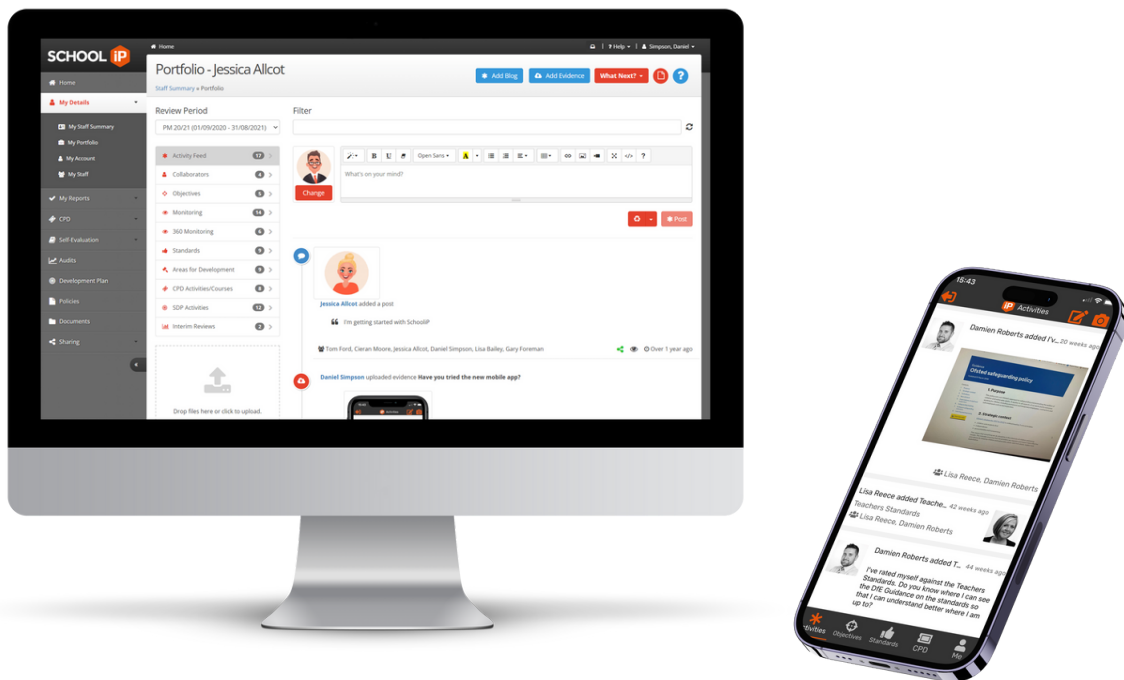

An example school development plan action plan report.

STAFF PROFESSIONAL DEVELOPMENT

SchooliP supports staff professional development through the setting of objectives/targets, capturing monitoring events like lesson observations, learning walks and work/book scrutiny, rating staff against the latest standards and recording evidence of professional development and course outcomes.

Staff may collate their evidence in an electronic portfolio, which can be accessed using the web browser or via our simple to use mobile app.

KEEP A RECORD OF CPD

Staff may be centrally allocated courses, record their own professional development activities and also make CPD requests too. Staff record their attendance on courses and record the impact of training.

COMPREHENSIVE REPORTING

Our dashboard displays provide real-time reporting for the following key areas:

- Staff Objectives/Targets
- Monitoring (Lesson Observations, Learning Walks, Work/Book Scrutiny)
- Standards
- Areas for Development
- CPD Courses & Activities

SELF-EVALUATION

SchooliP finally closes the loop in terms of whole-school improvement by providing self-evaluation as part of the process, supporting the Independent Schools Inspectorate (ISI) and Ofsted Inspection frameworks. Staff can collaborate to formulate their responses for whole-school and departmental self-evaluation.

Staff record their responses with supporting evidence and the ability to link to activities on the school development plan.

ISI Independent
Schools
Inspectorate

Ofsted
raising standards
improving lives

POLICY MANAGEMENT AND SCHOOL-WIDE AUDITS

SchooliP also facilitates the creation, approval and review of school policies. There are reminders to inform staff which policies require review on a periodic basis. There's also a helpful feature to make sure that staff view and acknowledge each policy too!

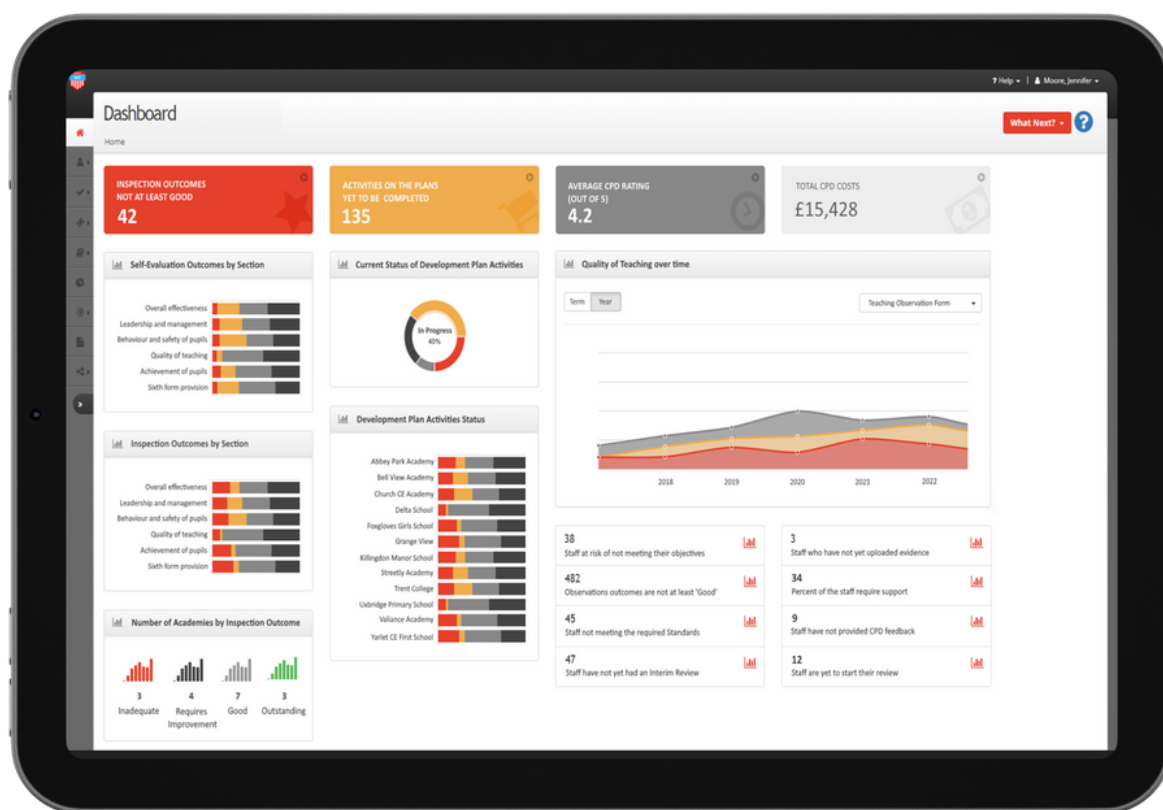

SchooliP also supports lots of different types of audits to facilitate the process of identifying the current position of the group of schools in relation to:

- safeguarding
- environmental sustainability
- Quality Assurance Frameworks
- and many more...

You can also create your own audits and link the activities to your school development plan.

WHY DO YOU NEED SCHOOLiP?

SchooliP is by far the simplest whole-school improvement solution to use. We pride ourselves on keeping things simple, with solutions that require minimal end-user training and an easy-to-use mobile app to support staff with evidence collection for professional development.

We also provide comprehensive real-time reporting, in the form of dashboards which empower leaders with the information they need to target improvement.

Less time is spent gathering data and more time is utilised identifying key strengths and discussing areas that may require improvement.

SchooliP empowers staff with their own professional development and supports leaders when making key decisions for improvement.

Put simply, **SchooliP** is the simplest and most effective solution for whole school improvement.

WHO USES SCHOOLIP?

SchooliP is used by over 700 schools and academies to seamlessly manage their school improvement.

WHAT ARE THE BENEFITS OF USING SCHOOLiP?

Here are some of the benefits of managing your whole-school improvement with **SchooliP**:

- A comprehensive framework for strategic whole school improvement
- Ideal for schools to share best practices
- Informs leadership meetings
- Transparent
- Evidence is centralised
- Detailed reporting
- Prompts and notifications to keep staff informed of their obligations
- Saves time for staff and leaders
- Simple and effective

But don't just take our word for it...

MICHELLE ZIEDLER

DEPUTY HEAD ACADEMIC, HURSTPIERPPOINT COLLEGE

"Because Hurst is inspected both by the ISI and Ofsted (for the Boarding side of the school), they wanted a system that could quickly show inspectors what progress was being made. SchooliP offers the ability to upload evidence from iPads which helps teachers, but it also helps Dee Mullings, the Deputy Heads' secretary as her photocopying, filing and admin tasks have been drastically reduced.

It also allows us to plan in advance for Performance Review meetings so that time is more focused on rich discussions about Teaching & Learning and identifying development points required.

Teachers have embraced the system and find that recording evidence in particular is now less of a chore. No longer feeling tied to the photocopier, staff can record a video clip or take photos on their iPads within the classroom and upload them immediately to SchooliP, against their personal objectives and against the Teachers' Standards."

**TREVOR GRAY**

DEPUTY HEADTEACHER, WELLINGBOROUGH SCHOOL

"A lot of competitors were only focussed on teaching and learning whereas SchooliP offers this and so much more.

In the first year we trialled the software with key staff and SLT and we saw real benefits and found the ability to keep linked data all in one place was extremely beneficial."

HOW TO GET THE BEST OUT OF SCHOOLiP?

At SchooliP we provide you with a dedicated Customer Success Manager who will work with you on a one-to-one basis, to guide the implementation process and deliver best practices, from their vast experience of working with other leaders.

A FEW WORDS FROM CUSTOMER SUCCESS...

ANDY GOODEVE
CUSTOMER SUCCESS MANAGER

"Hi, my name's Andy and I'm one of the Customer Success Management team at Derventio Education. I work either from our offices in Derby or when I'm lucky from home in Tamworth, Staffordshire.

Previously, I worked as a Headteacher at primary schools in the West Midlands.

I have also been a governor at Winhill Village Primary School, which is part of the John Taylor Multi-Academy Trust in Staffordshire.

I am responsible for conducting comprehensive customer onboarding programs, complete with extensive product training.

I like to develop a thorough understanding of our customers' needs, challenges, and goals, and then work directly with them to meet and surpass those objectives. on educating customers on how to successfully use their **SchooliP** software in their organisation.

I provide the resources and education needed to ensure that our **SchooliP** community:

- 1) understand the purpose of **SchooliP**
- 2) know how to effectively use **SchooliP** to drive their own success

I will support you from delivery to success!"

WHAT DO I DO IF I NEED SUPPORT WITH SCHOOLiP?

SchooliP has online help available within the software and bite-sized videos that will guide you through every aspect of the process.

Alternatively, we also have a customer care team who are friendly and helpful, who may be contacted free of charge 8am to 5pm, 5 days a week (excluding UK Public and Bank Holidays) via email and telephone. You'll be put straight through to a member of our team (no waiting in a queue) who can support you with any issues relating to **SchooliP**.

A FEW WORDS FROM CUSTOMER CARE...

IAN PARKIN
CUSTOMER CARE DIRECTOR

"Hi, my name is Ian and I lead the Customer Care and Customer Success teams at Derventio Education.

We believe in going the extra mile to support our customers and strive to deliver the best possible solutions. We like to nurture the relationship with schools, taking care of their onboarding and implementation. We find that creating a positive impression with our schools leads to the building of positive customer relations.

We regularly canvas our customers for a Net Promotor Score (NPS) and are proud to have been rated "World Class" in our service delivery.

Our customers are always very happy to refer our high level of service and attention to detail to other schools too!"

SCHOOLiP – A BRAND YOU CAN TRUST

SchooliP is a member of The British Education Suppliers Association (BESA) and is a supporting member of The Council of British International Schools (COBIS) and The Federation of British International Schools in Asia (FOBISIA).

In addition to these memberships, we may also be found on the latest procurement frameworks including the UK Government G-Cloud framework and Everything ICT too.

SchooliP is fully GDPR compliant too!
